CogniAccess LLC

Capability Statement

Identity, verified intelligently.

IAM & Identity Security Consulting | **Federal Subcontracting & Direct Engagements**

CogniAccess LLC is an identity and access management consulting firm based in Manassas, Virginia, serving federal programs through prime contractors and commercial organizations directly. The practice joins platform implementation with the control design, evidence, and documentation those platforms require.

CORE COMPETENCIES

- **IAM Strategy & Zero Trust Identity** — Identity assessments, target-state architecture, and Zero Trust implementation: phishing-resistant MFA, Conditional Access, device trust, and least-privilege access.
- **Microsoft Entra ID & Active Directory** — Tenant design and hardening, Conditional Access, MFA (including phishing-resistant), SSO, hybrid identity (Entra Connect), role design, PowerShell automation.
- **Okta, SSO & Federation** — Okta SSO and MFA implementation, SCIM provisioning and lifecycle management, federation (SAML 2.0, OAuth 2.0, OpenID Connect), and platform migration.
- **FISMA Audit and Controls** — NIST SP 800-53 control implementation, FISMA gap assessments, audit readiness and evidence, POA&M creation and remediation support, ATO and RMF support, continuous monitoring.
- **Identity Governance & Privileged Access** — Access reviews and certifications, joiner–mover–leaver design, privileged role governance, Privileged Identity Management (PIM), emergency access design.
- **Endpoint Identity, Intune & Device Trust** — Microsoft Intune deployment and device compliance, AD Certificate Services and PKI support, certificate lifecycle, and certificate-based authentication.
- **Microsoft Cloud & Data Protection** — Microsoft Azure and Microsoft 365 identity administration; Microsoft Purview for DLP, sensitivity labels, retention, audit, and eDiscovery.
- **Endpoint Detection & Response (EDR)** — Microsoft Defender and CrowdStrike Falcon EDR deployment and operations; alert review, containment, and Splunk and Qualys monitoring context.

DIFFERENTIATORS

- **Identity and controls in one scope** — platform configuration and FISMA evidence are designed together, so authorization packages reflect what systems actually do.
- **Federal-environment experience** — delivery experience in federal agency environments under FISMA and NIST SP 800-53 discipline.
- **Vendor-neutral recommendations** — CogniAccess resells no software; advice follows the environment and control need.
- **Dual-platform fluency** — coverage across Microsoft Entra ID *and* Okta, including federation and migration between platforms, where most identity boutiques cover one.
- **Operations-minded delivery** — rollout waves, readiness, exception handling, monitoring, and runbooks built into delivery.
- **Representation integrity** — the firm claims only verified credentials and experience.
